

Back up anything, anywhere, anytime

Acronis keeps your data safe & your business up and running

Acronis is a versatile, reliable and easy-to-use solution that gives you peace of mind. Safely back up and access important company data anywhere, anytime while maintaining protection and compliance. Compatible with more than 20 platforms including Microsoft 365, G Suite, Linux and Mac, Acronis safeguards data and ensures business continuity to keep your business up and running no matter what.

Safe & secure backup & recovery

Agentless backup

Acronis is a customizable, hybrid solution with no required agents or software to install on-premises or slow down systems

Multi-level encryption

Encrypted passwords for backups provide an additional layer of security to protect company data

Fast backup & restoration

Back up data quickly & efficiently, then retrieve it just as fast, even in the case of permanent deletion

Advanced ransomware protection

High accuracy ransomware detection & automatic restoration helps Acronis defend against malicious threats

Versatile storage options

Acronis is compatible with most major cloud storage providers & offers multiple storage options to keep data safe

Watch your back with a strong backup solution

Data breaches are simply too expensive to ignore. In the face of malicious activity or catastrophe, an online backup solution can be the difference between your business keeping its doors open or going under. Backing up company data also ensures that private customer information stays safe and compliant according to applicable rules and regulations such as HIPAA or GDPR.

\$3.92 M

average total cost of a data breach

(IBM, 2019)

81%

of ransomware infections target businesses

(Symantec, 2019)

500,000

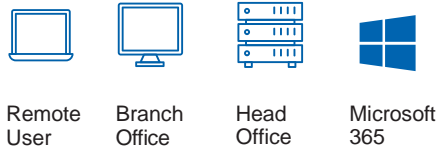

average number of sensitive files a company has

(Varonis, 2019)
